although the study of politics dates to ancient greece the basic questions that interested those earliest political
scientists still linger with us today what are the origins of government what should government do what

conditions foster effective governance rational choice theory offers a new means for developing correctable answers to these questions this volume illustrates the promise of rational choice theory and demonstrates how theory can help us develop interesting fresh conclusions about the fundamental processes of politics each of the book s three sections begins with a pedagogical overview that is accessible to those with little knowledge of rational choice theory the first group of essays then discusses various ways in which rational choice contributes to our understanding of the foundations of government the second set focuses on the contributions of rational choice theory to institutional analysis the final group demonstrates ways in which rational choice theory helps to understand the character of popular government

in the 1960s only 10 of peace agreements included some element of political military accommodation namely military integration from burundi to bosnia to zimbabwe that number had increased to over 50 by the 2000s however relatively little is understood about this dimension of power sharing often utilized during war to peace transitions through an examination of the case of south sudan between 2006 and 2013 this book explores why countries undergoing transitions from war to peace decide to integrate armed groups into a statutory security framework this book details how integration contributed to short term stability in south sudan allowing the government to overcome wartime factionalism and consolidate political military power prior to the referendum on self determination in 2011 it also examines how the integration process in south sudan was flawed by its open ended nature and lack of coordination with efforts to right size the military and transform the broader defense sector and how this led the military to fragment during periods of heightened political competition furthermore the book explains why integration ultimately failed in south sudan and identifies the wider lessons that could be applied to current or future war to peace transitions this book will be of great interest to students of war and

conflict studies peacebuilding post conflict reconstruction african security issues and international relations in general as well as to practitioners

an american writer and folk musician based in london grossman describes how the border wars between cyberspace and real life have spread from the net itself into government committees congress the stock market and the marketplace she explores such anxieties as vulnerability to malicious cyberhackers limits of privacy online internet addiction disadvantages of women and minorities in cyberspace and the increasing power of big business c book news inc

this book explores a democratic theory of international law characterised by a back and forth between theory and practice it explores the question from two perspectives a theoretical level which reflects and criticizes the categories words and concepts through which international law is understood and a more applied level focussing on cosmopolitan building sites or the practical features of the law such as the role of civil society in international organisations or reform of the un security council though written for an academic audience it will have a more general appeal and be of interest to all those concerned with how international governance is developing

includes the text of the covenant of the league of nations

this eleventh edition was developed during the encyclopaedia s transition from a british to an american publication some of its articles were written by the best known scholars of the time and it is considered to be a landmark encyclopaedia for scholarship and literary style
